

**Cameray's Third Annual Fundraising Workshop:
Working with Families in Separation and Divorce: Building Your Toolbox
November 25, 2016**

On November 25, Cameray hosted a very successful professional workshop at the Italian Cultural Centre. We had 86 participants come to learn and network. The morning was an extremely full and informative session on family law and how it intersects with therapeutic work with families going through separation and divorce. The session was facilitated by psychologist Dr. Lisa Ferrari and two esteemed Vancouver family lawyers: Lisa Hamilton and Craig Neville. The afternoon session was facilitated by Mena Perrotta, RCC, who presented resources and therapeutic strategies for supporting families through this transition. Lara Wease, RCC also presented and discussed her book *Mom Days, Dad Days (and Dolphin Day is Every Day!)*, an excellent tool for helping families negotiate co-parenting and transitions. It was particularly wonderful to have three Cameray alumni presenting (Dr. Ferrari, Mena, and Lara), showing the excellent talent and expertise being nurtured by our agency! It was an information-filled and successful day all around! Stay tuned for another "Building Your Toolbox" event next year!
